Reaver11 wrote on Wed, 30 April 2008 14:12 the M16 in the commando mod is not from westwood.

sure? and the knife beta havoc (logan) wears on the concepts looks similar like in the command mod package too!

so the only beta weapon we have is the pistol...

because the laser rifle and laser chaingun are skins made by commando too.

may be, i can ask e.g. Peter Larsen, if they could get the demo stuff free.

why they should not, its damn old.
