I just cut in, I have linked up all the Beta files and a few models from this topic to
Game-Maps.NET

Beta Models.
http://www.game-maps.net/index.php?action=category&id=183

Normal Models.
http://www.game-maps.net/index.php?action=category&id=184

As people fix the old models or find more, I get them up there.
