Got the special edition for \$100 (with taxes)

All is good, but the art book is a bit too thin, and the soundtrack CD sux. I expected lot more songs.

The game manual is a peace of Sh*it compared to Vice City manual, and the radio music so far is alright, but nowhere as good as on Vice City. Also the game seems a bit too dark, or does it happen at night at the very beginning.

Plus the online on PS3 does not work at the moment.

SO far, I am disappointed, even though the pool, a tetris like game, and bowling were pretty fun.
