Yeah, I just got it even though I despise it because everyone thinks Dragonforces' lead guitarist is the best because he can play really fast (Even though that's not real skill imo)

Anyway I gave Career mode a blast and there are some good tunes, plus, Guitar battle with Tom Morello is awesome, then playing Bulls on Parade with him? woo!

Too bad I got it for the PS2 :/ I can't download custom tracks for it.

Anyway, has anyone got it? what do you think? favorite track? oh and can you play online with the PS2 for it?

My favorite track at the moment is Bulls on Parade because it's a simple track I can play along to without hardly fucking up.

Oh and if you're in here to troll, yes I realise it's a plastic toy, yes we all realise it's button mashing, but it's fun, and that's what counts, now piss off.
