I remember playing with MissSnipe a few years ago and she was one of the first girls I met in Renegade. As far as I know she is registered on EKT now.

The next girl I remember was the one from the "post your picture"-Thread on this forums. I forgot her name...

Then there is Serenity from RenWarz and some from Germany I met in the past. On Unrules, there is Di-Joanne[UN] (or similar) who seems to be a girl.

All women are welcome to sign in on my Frappr map! If you are already registered, feel free to spread the link all over the Renegade Universe.
