blackhole wrote on Tue, 06 May 2008 14:40 what do you mean get over yourself, its part of the game.

If im not supposed to post it here, where do i post it  
It's part of that server, not the game. Recommendations have almost NOTHING to do with gameplay unless the server is modified to an extent to where it is.

Go to n00bstories' website, and post there if you're honestly that desperate about something as useless as recs.
