But look when 2 buildings are destroyed by the same person the person gets a rec for that. thanks to this mod those recs are blocked, i don't receive.

you guys are totally right, it's useless etc etc.
But it's the reason why this mod did it, that keeps getting in my head.

he noobs me coz my orca got stolen(that orca got destroyed 2 min later)
i noob him back and he blocks my recs.

That's crazy

You fucking idiot, you don't noob back a moderator when YOU indeed did a retarded thing. That depends. It has also happened to me, while I don't think I was doing an idiotic thing. Example: orca is red and you step out to give it a quick rep to fall back. U then get sniped -> headshot. You lose your orca but is it because you're a noob or because you got unlucky?

Same if you fly in, for example on Walls Fly, behind the ref; no one is around. You go in the ref and put c4 on it. The time you place your timed and remotes, someone gets in your orca. You lose it but you kill the ref. Are you a noob? Don't think so.

Of course there's like 20 different noobish ways to lose an orca as well. I won't argue that.

I don't think the moderator was right. If you give people a noob, then you must also accept it when they noob you back. It's different when someone goes on a !rec or !noob fest, giving them out to 10 people in one minute.

I don't get what the big deal is, though. !rec and !noobs aren't exactly the most important feature in the game. Sure, it's nice to be recommended from time to time.

So my personal opinion: !recall the guy again, he has been "punished" for long enough.
