I was thinking of a HL/steam-like GUI as in <http://www.rkm-fotomedia.de/images/steam01.jpg> but with Renegade colors and maybe a bit tiberium. If you are good then try your luck (I keep possible HUD extensions for later, since I have not yet enough experience in DirectX )

mmhm well, If you need my msn address look at my profile on these forums, I can do a Steam-like look and add some Tiberium in the mix.
