Subject: SS renguard problem
Posted by supergike on Fri, 23 May 2008 19:02:28 GMT

Hello,

I'm hosting a server with Brenbot 1.52 Build 1

and I have some problems with it.

1.If somebody joins it says they don't run renguard (temp fixed)
2.If my buddy joins he gets the sound that he's connected to renguard on my server but then if i
join with renguard it says i don't use it.

Please help me

oops can sombody please move this topic
