Warning for the people who still use 56K
The Post your Renegade screenshot Topic
• The point of this topic is to post your most honorable or   fun Renegade moments.
• The idea of this is to tell a little line of text or story that came along with that Renegade moment.
• Of course you can just post a screenshot of a game you just played.

It may include any type of SS for example:

Ile start off with probably one of my oldest screenshots in my collection, it's not even made by me, I wasn't even making screen shots at the time.

Lag on Hourglass it was the Deadfive server? I can't remember the name it used. But it used to be a pointwhore kingdom. This server was hosted in Asia. At that time I was sitting in my MRLS. And look what happens next:
