I'm using links because some are big and I'm posting quite a lot. Most of these are old and I have about 650 total (minus about 150 I lost before I started this one).

Another shot of the then new Mammoth Tank (I like Mammoth Tanks if you can't tell).

Cool blockade of tanks waiting for NOD's APC rush (like 5 of them).

Elite during a game.

<http://i181.photobucket.com/albums/x19/H3llian07/BCvsJelly.jpg>
2nd community game series between Black-Cell and Jelly. Jelly won both series and the game from this shot (by like 500 points at the very very end).

Recent ones that I scaled down so they're probably a bit blurry.

<http://i181.photobucket.com/albums/x19/H3llian07/Renegade610.png>
Super bad lag (Photobucket was dumb and shrunk it down by 1/4, so if you can't see it, the ping was 3741).

<http://i181.photobucket.com/albums/x19/H3llian07/Renegade619.png>
Some explosions.

<http://i181.photobucket.com/albums/x19/H3llian07/Renegade626.png>

<http://i181.photobucket.com/albums/x19/H3llian07/LottaLadderPoints.jpg>
A lot of ladder points (from the above game).

<http://i181.photobucket.com/albums/x19/H3llian07/Renegade632-1.png>
Upgraded vehicles apparently.

These last three are from a story. On hourglass a long while back (in some German server), we lost our WF near the beginning. We had everything else. Nod had everything. I had a Medium Tank and a stealth Hotwire. They couldn't rush and kill any buildings nor the tank (and I left the base a bit on a few occasions). Eventually, some guy cheated and immediately left the game. My Medium Tank instantly blew up on the hill (not c4, because it was instantly and happened near our end of the slope). Afterwards, they rush and won, but they struggled with that too.

By the way, Black-Cell has a huge thread like this stickied jam packed with screenshots. I always wondered why there was nothing like that here, this being the official Renegade forum and all (unless I missed it).
