flyingfox wrote on Sun, 01 June 2008 03:33Why are any of these fancy mice better than standard mice with a left click, right click and scroll wheel, apart from being able to scroll left and right? They aren't. You won't be a better gamer by using a mouse with more features.

I for myself like to keep it simple: A good optical mouse with left, right and a wheel. Of course, I often make use of the comfy "turbo-scroll" feature by pressing the wheel (picture down here) but that's it. I "only" have 1600dpi and don't need anything higher.
