No, you can see the pictures unregistered. Otherwise, I would have logged in at BC ^^.

I am sorry, I haven't looked on my HDD yet, but can't remember having any stuff from CnC Ammo since I started collecting files as of spring 2004.

I have some old things from the olden days hosted on Trielite (anyone remember the site?) like the Kapoks 6th sense reticle etc but I have to search my USB-HDD for a desert pack.

If I haven't one that fits your needs, I can make one tomorrow. Chuck Norris' pack is made of original Westwood textures as it seems, so it shouldn't be that hard.

I suggest you to have a look on the Jelly site, because GrimmNL, DieHardNL, SMLfires and some others are very active there. On Renforums, there is Scrin, but I really doubt that he makes skins for other people. Although he is good at it.

I'll check back this evening to keep you up to date.
