I'd love to write in caps again just so he thinks I'm getting mad, that's the fun part. =(Yes, I'm arrogant. You're right for once. I'm arrogant because YOU'RE WRONG.

I'll make that bigger so you can read it:

FUCK OFF

Sorry, caps lock set in there. You can't ignore the people making shitfests over troop as easily as you can ignore troop himself, thus the problem lies with the individual users and their problems with troop instead of my problems with many different people who otherwise post useful information. Is that clear enough for you?

And yes I was banned but it wasn't "several years at a time", and it's only a minor setback.

Let's try the same with you.

BAN PLEASE.
