Lately I've been downloading lots of mods for Half-Life and Half-Life 2, And this looks like the best one yet.

I'm still waiting for Black Mesa Source to be released though, it's like Reborn, 2003. >.>

Yeah, it's pretty cool when you get the hang of it, raiding battleships is awesome, lots of teamwork, nothing like rushing into the hanger in a ship and just drop out of it, blazing away with your weapons.

I'm thinking of buying a joystick just for the game.

I love the handling on the Spaceships, It's not awkward as fuck and you don't need much macro skill.

Visually looking, it's sexy, Great FPS and all.

And yeah, raiding ships is great, 10v10 in a small corridor, lol.
