Notes:

I'll upload the PNG version in a minute.

Havoc was posed in RenX for these shots (as describe in the previous post) In the third panel havoc was supposed to have a "bighead", but unfortunately resizing the bone didn't work.

This comic's images were taken from within LE like comic No. 2 and 3.

Again seeing as the postures WW made for the characters are relative to the current bone set the Walk-through Havoc looked messed up.

The camera on top of the TV was a VIS spot. Annoyingly LE wouldn't allow me to make one when there wasn't any vis calculated. I cheated by setting granularity to max and checking the Quick and Dirty box

If you have any comments or requests (original files, help on posing or comic suggestions just post.

Ah, a nice relaxing one-player LAN game in the sun. No spawnkillers, Final-Reneagde users, Renguard, evil Mods and N00bs. Now all I need is a 6-pack of beer.

Crap! Forgot about the bots.

CRACK

GAK!

Why don't they just shoot me?

Oh, I see...
