Zion Fox wrote on Sat, 07 June 2008 11:59I knew you'd reply with something like that.

Take a look at the start button carefully. See the part of the logo that sticks up above the taskbar? This isn't possible with XP skins or themes, even using alpha channels.

Also, you're not going to ever get the quicklaunch icons so close to the start bar in XP.  
clicky

Oh em gee, it's also sticking out in this XP theme! Holy shit, it MUST be Vista!

Idiot.
