SSADMVR wrote on Thu, 12 June 2008 05:57 There's a word in my language, which I don't know the English equivalent of, that states you do not believe in any form of God, church, etc. It would fit better to the situation.

Oh, and a rational look at the possible definitions of rationality would give you the right definition. lol

What's "reasonable" differs from person to person. What you may think is "rational" could be completely insane to another person. Same goes for what you think is insane, could very well be rational to another person.

But, if you want to think of it that way, look at the rational definitions of Religion then...
