So, while I know that City2 will be a new map, I was thinking, why not a few more? There's plenty of already modeled maps that never officially made it in, but were re-made as fanmaps. Maps like snow, sand, gobi, and etc.

These were interesting maps, so I'd definitely like to see them in as a patch. Perhaps not ALL of them, but a few atleast to spice it up a bit more than just one map.

And, although it may be a stretch, perhaps new game modes eventually like Westwood intended? Capture the Mobius, Sole Survivor, and etc would be interesting to see officially.
