Subject: Looking for people who had graphics problems with 3.x
Posted by jonwil on Sun, 22 Jun 2008 08:22:46 GMT

I am looking for anyone who has any of the following problems with scripts.dll 3.x:
Slowdowns
Black screen
No graphics
Crashes that happen right on startup before it renders graphics (and/or that mention d3d8.dll in the first lines of the crashdump.txt file)
FPS drops
or any other graphic related issues.

If you have any of these problems (and have tried scripts.dll 3.4.4 but still get the problem), post your details here including your system specs, windows version, graphics card and anything else relavent to the problem (such as crashdumps)
