Thank you all for your help but all in vain! I think it is a dumb program!

Anyway, I went server to server asking for SBH players to pose for me. Many refused thinking I was trying to get their SS or cheats like that lol!

Then a very SMART clan player understood what I was asking and took his time and posed with his SBH character. I got over 50 screenshots from almost every angle!

Anyway, I am full of excitement! I will announce something next week in the General Discussion section.
