Xylaquin wrote on Sun, 29 June 2008 11:35does renegade support 1440x900 then?
you can enter about eny resolution in the registry and it works, at least till 1680 x 1050 (cant test higher, as my doesn't support more.
I am thinking about getting a 32 to 40 inch LCD HDTV and perhaps use it to game on, occasionally.
