Ok lets set this crap right.

-You're the racist here, saying all turks should die and that germany is full of them

-DNS-bans cannot be evaded unless you do some really dumb things. Also, DNS-bans can be placed per-PC

-You, indeed, think you're 1337, and i think it's quite weird you're not already banned from whole XWIS. but thats not my problem.

-Being proud of the fact that you're as bad as mandai is stupid, but we already know that: it's just the way you are.

-I have many other things to say like "fag" and "mean lady" and "dickhead" and "pig" but I won't say them, it'll be seen as flaming.

Sincerly, =CA=Sercan386

P.S. die >:D
