EvilWhiteDragon wrote on Wed, 02 July 2008 06:47It's not that important, that's right, it doesn't change much when it's on..

Only the amount of points you get, which is only important for the ladder server...

So unless you want your server unladdered (or you like sniping tanks with a havoc) you might as well have it on.

yeah and it is right that it isn't important. so why force servers to use it if they want the TT patch...
