Due to your argument with the ladder system why not just have it so servers can opt to be in the ladder and therefore not have point fix.

I don't see how all servers can be on the ladder anyway when there are death match server, servers with mods that allow you to get 1000 point for killing a single character.

Clanwar servers already use a ladder system that I believe everyone is happy with, therefore there is no need for them to be part of the ladder.

Its simple just make it so a server cannot be on the ladder without the point fix on. This simple adjustment to the TT plan is the only thing that is needed to make it so nobody has a problem with the patch.
