RoShamBo wrote on Sat, 05 July 2008 21:06I think he means a player would have to connect first though XWIS and tell the server he wants to direct connect before he can do so.

Yes.

If someone has a / in their name then as soon as you type their name out the chat-box immediately changes to private-message them. It's a normal feature of renegade that can be exploited as I wrote before so that you can't actually finish typing any ban, kick, noob, rec etc commands out.

(When you type "/" followed by a player name in the chat-box the messaging system allows you to private-message them)
