cheesesoda wrote on Sat, 05 July 2008 20:21Is it just me, or does reading SSnipe's last post make your head hurt? If there's ever a reason for people to actually type correctly on forums, that post is it.

Macs are good for design. PCs are good for office work and gaming.
sorry about that im on a mac now and typing is hard everytime i press something another thing happens lol ill prove read it for now on

so you think windows are better for gaming then macs?
