download or update drivers

They are up to date like I said.

SSnipe wrote on Sat, 05 July 2008 23:39  
check hardware (idk check for dirty lens?) worth a shot right?

It's less than 2 weeks old. I doubt I have dirty problems with a new computer.

3)make sure nothings interfering with the hardware

You mean like what I've been doing the past 4 hours?
