Caveman wrote on Mon, 07 July 2008 02:08Gozy you're not getting my point. The time example was just to show why [i]I[/] don't want to use XWIS itself.. I cannot be bothered to load Renegade and then login etc.. I would much prefer to type /ren and off I go.

I think we got your POV quite well: you're not willing to spend 15 secs on loading the game with the benefit to make it much harder for cheaters/ban-evaders to join the game at all.
Same as I don't see a reason other than not having a valid serial for joining the game via gamespy.
