Hello everybody, for now on Everything for the mod will be placed in here. I don't want to keep making new threads and taking up room on other good conversations.

The only way I would make a new thread for something is if it's something ultimately amazing, or time for beta testers/a DEMO/Full Release.

So ok, please lets keep this thread clean and on subject (E.G. - This mod.)

Please feel free to ask questions about the mod, make suggestions, or just plainly make comments about the mod.

Thank you all for your Interest and Support,  
N1warhead.
