Clown wrote on Tue, 08 July 2008 13:49So if I understand correctly, EvilWhiteDragon's method would cross-check GSA players' serial with the XWIS database to make sure it's valid?
If that's right this could solve so many problems we have
Indeed, and would automatically create nickname protection, as everyone will connect through XWIS, even though they wouldn't notice.
This has as main benefits that serverowners can properly ban, and that GSA players will get more servers to choose from As there is no real reason not to have your server on GSA then.
