stahleiDeathgodDon't flatter yourself, not only are you not good but you were kicked for ping.

It doesn`t matter wether i'm good or not. A high ping, may i laugh, i had a ping of 80, puh, thats very high.

Thats strange... Our server doesn't log many pings under 100 -- unless they're on the network at MIT; somewhere I highly doubt you're a part of, seeing how you apperently can't even master simple grammar. Renrem logs all pings, and with a simple command, we view that log. Somehow, I would place you in the 200-800+ range. Not your inaccurate, FPS dialog of "80".

Even moreso, I remember seeing you in OUR servers quite a while ago. You suck, dude.
