AWESOME!

EDIT (after getting over the initial shock):

-Beautiful Under map...just as I wanted! DON'T FORGET TO ADD THE SNOW-COVERED TREES!

-Hourglass is great but as Ryu says, I too miss the blue sky. But good job anyhoo!

-Will the 6 "lightpods" on the Hon stairs remain? It might affect GDI APC rushes.

-Great job on the GDI soldier! Looks hot tbh!

-Beautiful gameplay scenes...I know this is WIP but hehe, I love the progress of this mod!

Excellent work!
