I stopped playing on that server. Those mods should not use the disarm command.
This is what happened to me.
I got a nuke and a sbh, and i was going to the gdi base (Walls_Flying)
I placed the beacon on a hidden place in GDI Power Plant. After 7 seconds, a mod disarmed my beacon. I was really pissed. Then i left. That was mean

There is a Storm server, join that one it is fun.
But they serial banned me
