Don't feel bad about the kick, man. I don't know how an idiot like sgtass became a moderator on that server, but hopefully he'll lose it soon.

Seriously though, don't start thinking that just because some retarded mod kicked you the whole game has gone down the shitter. There are plenty of amazing servers on Renegade still, some with lame mods but most of them are tolerable.

Your tactic was good, too. Sgtass is just a fag. Go play some more Renegade.

Edit @ACK: For starters, this game is definitely not dead seeing as how there's on average a few hundred people still playing this game at all times. Secondly, you're right, he might have pushed the issue too much but if you're in someone else's house, and they're treating you badly, I think you're well within your rights to say something about it.

There are two sgtass's, one is the father(sgtass64 aka the mod) and the other is the son (sgtass96) who is the one presumably banned on ektrpg.
