GoTWhisKeY wrote on Tue, 22 July 2008 08:58imo, either implement the pointfix, or don't. Don't give server owners the choice... all thats going to do is split the community. The people who are against the pointfix, just don't know any better and like many people have stated, are stubborn and afraid of change. The pointfix is all positive - please implement it in the patch and force it on to all clients and servers. Thanks.

Either you TDo or you TDon't.
