The main reason people want you to stay banned, HORQWER, is because you not only cheat, say you won't, then do it again- Is because you're the kind of immature child who ignores everyone who disagrees with you, and constantly repeats their own mistakes. Hence, why I refuse to give you any more chances on the EKTRPG server. The ONLY reason why you were unbanned was because the banlist fucked up, allowing banned people to come back in. But it's fixed now, so yeah.

TL;DR: Fool me once, shame on you. Fool me more than once, it aint gonna happen, mother fucker.
