z310John Shaft Jr.Thats one of the reason why I have one of those clear plastic keyboard covers on my keyboard. To keep the keys clean and not have the letters or numbers rub off.

One of my friends is cheap and he puts plastic kitchen wrap on his keyboard to keep it clean.

Where do u get those plastic covers??

its those ceran wraps they are clear and kinda thin and sticky if your wet and the case is long and made of carton

i think i didnt say that right :rolleyes: :rolleyes:

i think i didnt say that right
