pawkyfox wrote on Sat, 02 August 2008 14:13Hi,

I noticed in some servers they have the Logan character you can buy and he walks SUPER FAST. He also has a Ramjet.

Is there a mod...like a mod package I can download for him so I can use in single player LAN maps?

Thanks for your help!

-pawky

Just fire up LE, edit the pre-sets and then copy the objects.ddb file to your data directory. You can't play online with it though, for good reason.
