i just recently got renegade, and i love it.... and today, i just played my frist cops and robbers.... and i do not think i will play another one again, what i got from it was utter crap..... it went ok at first.... then the admin buys a apache... and goes, and i quote, "no one attack the apache, it won't hurt any1" so he brings it over the GDI base, no one attacks it.... then i see him dropping people off.... so i say, "wtf?, thats cheap dude, what are you doing? man" and he is like what? i didn't do ANYTHING.... then he shoots a few people on the ground, so i fire back, then he kills me, so i buy a personal ion cannon, and shoot him down, then he kicks me.... it was so gay, was no fun at all, and it was basicly "i'm the admin, you can't kill me, i can kill you, and i do what ever i want... cause i'm shit"
