I'm not sure if America can get any worse than Bush, looking at:

* Irak: while the idea itself of cleaning out the dictator wasn't bad at all, it seems like the way it was handled afterwards wasn't 100 % terrific;

* Iran, North-Korea, ... relations;

* current economy collapse due to oil prices going sky high while noone ever invested in substitutes due to short term vision and the house credit crisis making huge banks only just survive thanks to lots of government aid;

* the whole environmental debate itself where Bush clearly choose to go for short term economic gain instead of long term vision;

* ...
