What I don't like about America's politics is that everything has to be either black or white. (That isn't a comment on race <_<)

I mean, people are either 100% "OMG T3H CHANGE IZ BAAD!" or 100% "EVURTHIN IZ BROKKEN AND NE3DS T3H CHANGE!"

What we need is a government that is able to actually sit down, analyze a situation, and determine if it is ok on its own, or if it needs to be reworked into something that will be ok on its own. Then actually do something to make it work.

This is why I hate people who consider themselves conservatives or liberals for that one reason I mentioned above. Screw what you think change is. "Oh change is good" "No change is bad" drop that outlook on what you think "change" is and instead focus on the issues.

Sure not everyone will like a change in something that we know all to well, but you cannot progress without sacrifice.
