danpaul88 wrote on Sun, 13 July 2008 08:05They don't do anything. It's a set of commands that was never finished, and was removed from the final release version of 1.52, so I don't know why you even have them.

They weren't removed from 1.52, check again. !getlocation still works.

EDIT: As do the others it seems.
