[BBFPshycoone wrote on Sat, 09 August 2008 16:22]Well, I've gotten the server up and running, got the brenbot running fine too.

Only thing is now that when I type like. "!help" it pops up in IRC.
When I write in IRC that is, but all the server commands come up in the IRC too.

I don't want them in the IRC, I need them to come ingame..

And I can't find a single good tutorial for the brenbot.
i think this is it http://ren.game-maps.net/index.php?action=file&id=683
