did u try this one

http://new.brenbot.com/files/brenbot/br_1-52_install.exe

it has everything...updated...cp2 and ssgm few addons and etc etc

Yes sir I did.

I tried that one and the mini-installer, both proved to be corrupt/not working. Same was for my friend that tested.

I'm thinking of maybe trying to downgrade to 1.33 again. :/
