danpaul88 wrote on Mon, 11 August 2008 11:58 Only if you want the same image on both screens, and it would be picture only, audio is carried on a seperate cable.

yes thats all i want..same image....but the audio i plan on doing as way and came up with

using a stereo splitter speakers plug into one and rca audiop to stereo cable plugs into the tv...which i already have that lats cable heres a pic
