Shouldn't be decided by the public, majority doesn't know what they're talking about

I can agree with you there, to a certain degree.

The reason why this poll is open to the public is because TT needs the support of the ren community (or atleast the majority). That was explicitly stated by EA.  
(correct me if i'm wrong )

As to my vote i can say the following:  
imo the arguments for not having the outer pt acces removed are ridiculous. (you can prolly gues what i voted)

If EA got their act straight from the beginning the bug wouldn't even have been there, or atleast not for long.
