First off, get away from tigerdirect. It's possibly one of the worst computer sites on the internet. Try [www.ncix.com](http://www.ncix.com) or [www.directcanada.com](http://www.directcanada.com). Both usually offer free shipping deals, and they always have better deals and lower prices on everything.

Secondly, why are you SLI'ing two 8600s? Just get a 8800GT...
