BLABLALBLALB + an image taht is one post above

Please don't quote the above image or don't quote the image at all just quote the post cuz till both load it takes some time on slow net

Unless you have an extremely crappy web browser, it will only download the above image once, no matter how many times it is mentioned on a page... So if I quoted that image a million times, it will still one download it once.

I kinda figured that out my bad ... but it still duz take page space.
