Whenever I buy Orca/Apache, I put 4 remotes C4 on it (I know 2 would kill it). So if it gets stolen, I can blow it up! Not that much of a problem for Nod but for GDI it is a must.Except imagine everyone doing that. Say goodbye to at least half your mine limit.

It doesn't work with heavy tanks. Yeah, you will be taking up the limit. But atleast most valuable and weak vehicles like Orca/Apache and stank.
